

### Rose & Grass Gardend

This garden has an antique look focusing on unusual color (gray, bronze and russet) roses, combined with ornamental grasses. Many of the roses planted here have sweet tea or clove fragrance.

### Rose & Herb Gardend

Light pink and mauve-colored roses take center stage in this bright, pop-inspired garden, combined with herbs, yellow leaves, and other plants. In addition to the fragrance of roses, visitors can also enjoy the scent of fresh herbs.

### Rose & Clematis Gardend

Dark red and, purple, roses are the stars of this chic-looking garden, combined with clematis and dark-colored leaves. Many of the roses planted here give off a wonderful old rose fragrance.

### Rose & Perennial Gardend

This garden gives the impression of purity, with white roses as the main attraction in combination with white perennial plants and variegated leaves. Here, visitors can enjoy the various shades of white that the plants possess, such as pure white, ivory white, white-based colors, and grayish-white.

### Rose & Shrub Gardend

The garden has a sense of scale, with roses in seven colors, including yellow, orange, and mauve, as the main flowers, combined with shrubs and large-sized perennial plants. Visitors can enjoy a leisurely stroll among seasonal flowers, including a collection of approximately 300 varieties of hydrangeas and more than 30 varieties of cherry blossoms.

### Tokimeki Gardend (Open only early summer and autumn)

The garden is a combination of white flowering plants with red roses playing the leading role. The garden is named after the adjacent wedding hall (THE SEASON'S), in the hope that it will be a garden of romantic connections.

Annual Flower Blooming Schedule	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Roses					Light Green	Green	Green	Green	Light Green		Light Green	Green
Hydrangea						Light Green	Green	Light Green
